

Giving blood isn't as scary as this

Send those fears far, far
away — donate at our
community blood drive.

If you've ever been afraid to
donate blood, we have some
out-of-this-world good news: Giving
blood is safe and easy. Just ask the
donors who give 118.5 million units
of blood each year here on earth.

**Can't donate? Volunteer or
cheer on a friend.**
