

ENERGY ANALYSIS

Allyson Calderon – CLEAResult

P: 720-548-1160 / E: Allyson.calderon@clearesult.com

Energy Analysis Overview and Highlights

- Identifies areas where you can save energy and reduce operating costs
- ASHRAE Level-1 energy audit
 - on-site or remote audit options available
- **No-cost** to all size Colorado business customers until December 31, 2020
 - Valued at up to \$2,700
- Helps customers plan and budget for capital improvements
- Customized post audit energy report

Service Includes

- Audit performed by a qualified energy engineer
 - Review of major building systems
 - lighting, HVAC, commercial refrigeration, domestic hot water, pumps and motors
- Energy efficiency education and Xcel Energy rebate information
- Post assessment report and review
- Energy conservation project prioritization assistance
- No-cost direct installation of instant-saving measures for eligible customers

Post Energy Audit Report

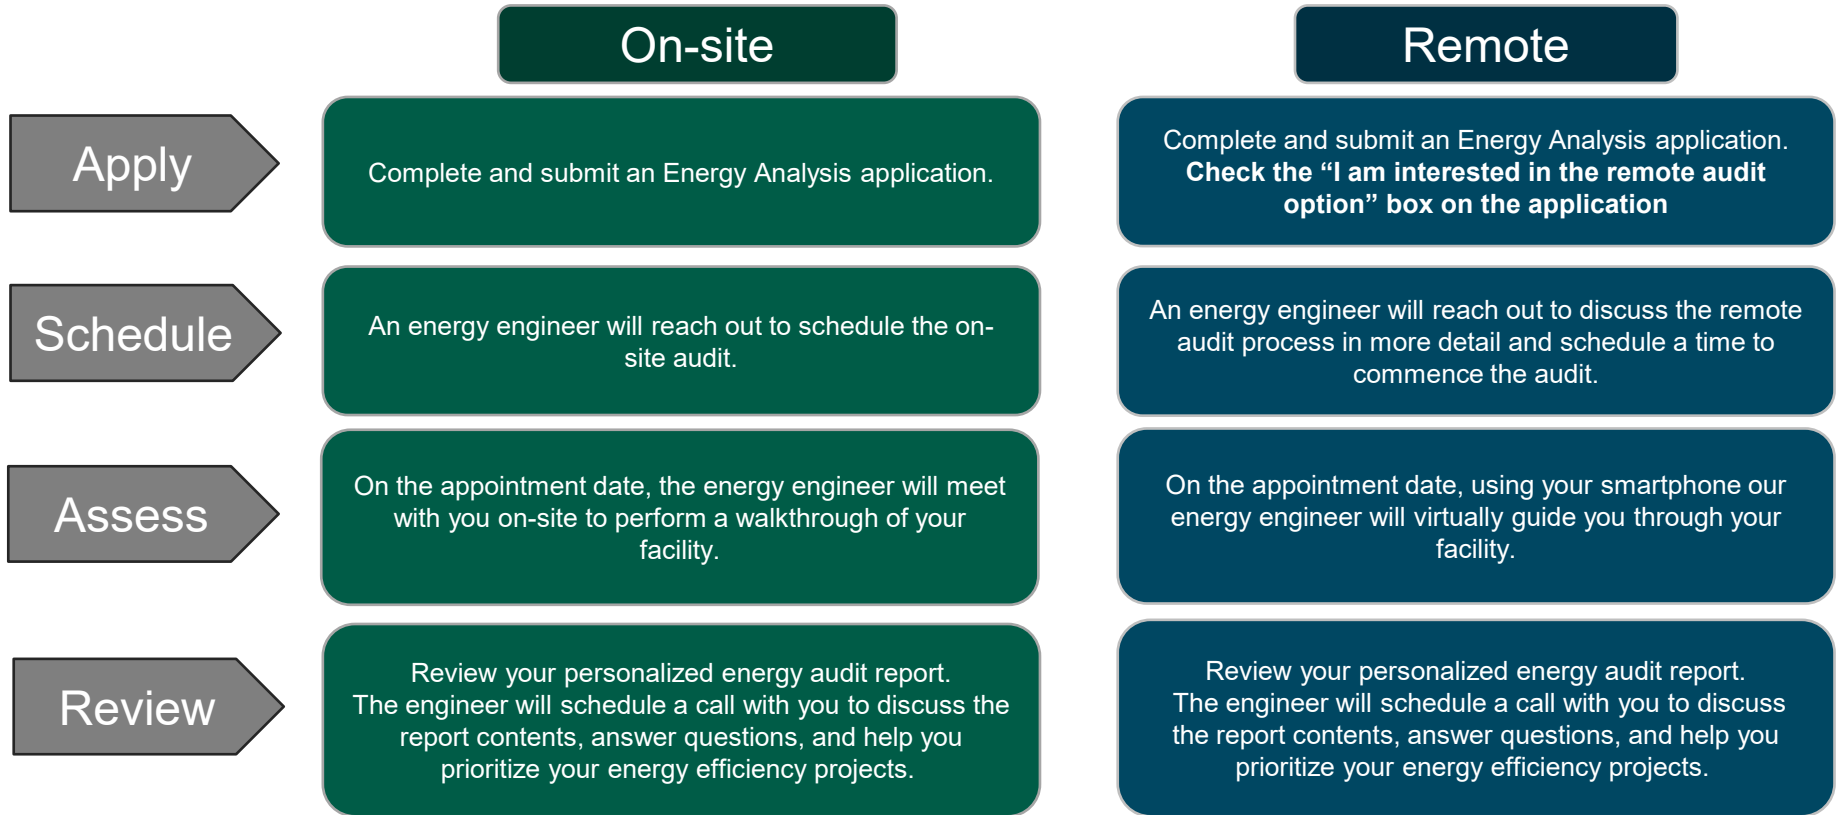

The post audit report provides:

- Inventory of current building systems equipment
- Energy end-use profile that shows greatest energy uses by fuel and equipment type
- Bill analysis to show energy consumption trends year over year
- Facility energy use score and how it compares to the ENERGY STAR® benchmark for like facility types
- Low and no cost energy conservation opportunities with the associated payback, potential energy savings, estimated project cost and estimated Xcel Energy rebates

Customer Requirements

- Electric and/or gas customer in Xcel Energy's territory
- Commercial meter
- Approved by Xcel Energy
- No previous assessment within the past 3 years
- Access to a smartphone that can be connected to the internet or cellular service at time of audit – REMOTE AUDIT ONLY

Energy Assessment Process
